## PROFESSIONAL OVERVIEW

Recent Computer Science graduate with strong problem-solving skills and focused on full-stack mobile development using Flutter and React Native. Experienced in building robust, cross-platform mobile applications with backend integration, while also proficient in modern web development technologies. Seeking a full-time software developer role to contribute to innovative, user-centric solutions.

## STUDY ABROAD

### Seita Scholars Study Abroad | CEHD 3050

Santo Domingo, Dominican Republic | Summer 2024

- Explored social justice in educational and social services sectors.
- Focused on personal and cultural identity, social relationships, and life skills through the seven life domains framework, plus engaged in government agency visits (DR Congress and U.S. embassy).

## TECHNICAL EXPERIENCES

### Western Michigan University | Mobile App Developer

January 2024- December 2024

- Collaborated with a team of 5 and the WMed research team to develop cross-platform software for HoloLens2, tablets, and desktops using Unity, C#, Flutter, and SQLite.
- Designed and developed the mobile/tablet application using Dart and Flutter to support EMT staff in reducing pediatric medication errors.

### Western Michigan University | Web Developer

January 2023 – April 2023

- Worked with a team of 4 to develop a web-based application for the WMU Department of Psychology to assess children with autism who are non-verbal.
- Built a clean, accessible interface and backend functionality to streamline behavior analysis and data collection for clinicians.

## WORK EXPERIENCES

### Bethany Christian Services | Youth Specialist

Kalamazoo, MI | 2023- present

- Provide care, safety, and supervision for residents in a safe and structured living environment.
- Mentor youth, assist with client intake, maintain documentation, support cultural adjustment, and personal development.

### Amazon Warehouse | Problem Solver

June 2020 – August 2021

- Resolved order inaccuracies, located missing inventory, and processed damaged goods according to warehouse protocols.
